SKYFLOW Halo

MOST POPULAR

A standalone 4-stage reverse osmosis system for the water you drink and cook with — sized to fit perfectly under your sink, no whole-home equipment required.

WHAT'S INCLUDED

1. **High-Rejection TFC Membrane** — removes up to 99% of dissolved contaminants (50 GPD)
2. **Carbon Block Filters** — superior conditioning that reduces bad taste and odors
3. **Alkaline Injection** — adds natural minerals, improving pH levels toward optimal alkalinity
4. **Smart Wi-Fi Leak Detector** — included with every Halo installation for added peace of mind

Best for: Renters, apartments, and homeowners who want purified drinking water without a whole-home installation.

TECHNICAL SPECIFICATIONS
